

# Introducing 4"x4"x4" Glass Block

Pittsburgh Corning announces a new size of glass block that will provide even more flexibility when building with glass block. The new 4" x 4" x 4" Premiere Series glass block can be used with the 4" x 8" x 4" glass block to create a running bond design which provides a new look for glass block installations.

The new 4" x 4" x 4" glass block was used extensively in Brockman Hall at Rice University to provide the needed security, privacy and aesthetic design to complement the masonry building. The 4" x 4" x 4" glass block is available in three classic glass block patterns: DECORA, IceScapes® and VUE® – each provides a different level of privacy.

## Premiere Series Glass Block

- Pittsburgh Corning's best series for architects and designers
- The widest variety of sizes, shapes and patterns for the ultimate in design flexibility
- Highest color, visual brilliance quality and consistency
- Compliant with building codes in all states
- Engineers on staff to advise proper installation and fabrication techniques
- Made in the U.S.A.

## Patterns Available

DECORA® Pattern

IceScapes® Pattern

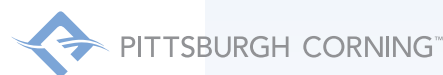

VUE® Pattern

*Note: All patterns also available with "LX" fibrous glass insert.*
